

Transport of an Extraterrestrial Modular Structure

The reader should realize that from time to time extraterrestrial spacecraft and assembled structures are observed by earth bound investigators. Many are sighted by NASA and quickly suppressed, but others are discovered by other agencies and individuals that are beyond the reach of the American Government.

Let's talk about one such observation...

Introduction

NASA's Meteoroid Environment Office (MEO) who confirms that for almost two years the U.S. government used the McDonald Observatory in Texas to track the approach of two of these enormous objects.

In 2013 two enormous "boxes", L-shaped, that consisted of elaborate scaffolding enclosed structures were seen and photographed as they entered our solar system from deep space. Each one was the size of a small town. They were observed on approach when entering the system. Then to everyone's surprise; they decelerated. They changed their course trajectory, and entered onto a landing approach to the moon. As they neared the moon, they decelerated yet again and conducted a careful landing sequence.

Photographed object in route to the moon. Image is from TRN.

All of this was observed by more than just a few people and the Internet was flooded by the buzz concerning this object. (Of course, it never made it to the main stream press.) Those involved in watching this event included not only amateurs, but the ESA, and NASA. The Internet and networks were flooded with excitement, and it was impossible for NASA or the NSA to do anything about it.

The two objects approached the moon in a strict landing pattern. Decelerated in an understandable and logical manner, and then landed carefully and gingerly. In mid-January 2014 the objects landed.

Upon landing, they immediately began an elaborate (and quick) assembly process. This event was tracked by NASA, the NSA, and a number of Earth-bound UFO enthusiasts who alerted the local UFO community of the event.

Emergency Investigations

VISUALLY CONFIRMED: Enormous Craft Detected on Moon

by apollosolaris

Monday, 20 January 2014 11:58

January 18, 2014 – (TRN LINK) – At least one enormous object of unknown origin has been visually verified as having landed on our moon. As a result, on Wednesday, January 15, three Terrier-Orion rockets blasted off within a span of 20 seconds from NASA's Wallops Flight Facility between 1 a.m. and 5 a.m. EST (0600 to 1000 GMT) on hush-hush missions for the Department of Defense (DoD).

The Wallops Flight Facility is operated by the Goddard Space Flight Center in Greenbelt, Maryland, primarily as a rocket launch site to support science and exploration missions for NASA and other Federal agencies. It also supports science missions for the National Oceanic and Atmospheric Administration (NOAA) and occasionally for foreign governments and commercial organizations. Wallops also supports development tests and exercises involving United States Navy aircraft and ship-based electronics and weapon systems in the Virginia Capes operating area,

near the entrance to the Chesapeake Bay.

TRN has obtained photos of the unknown spacecraft and has an audio interview with an outside consultant from NASA's Meteoroid Environment Office (MEO) who confirms that for almost two years the U.S. government used the McDonald Observatory in Texas to track the approach of two of these enormous objects. A year ago, in January 2013, the objects had gotten to 200,000 miles past Mars when they suddenly vanished.

Realizing these two craft were approaching earth and might not be visible to NASA's Lunar Reconnaissance Orbiter Camera (LROC) depending upon where they went, the Government reactivated the previously cancelled Lunar Atmosphere and Dust Environment Explorer (LADEE) to be launched to the moon on September 6, 2013. It took almost 100 days for LADEE to be placed into proper lunar orbit because NASA utilized gravity instead of rocket fuel to achieve this. By December, 2013, both the LADEE and the LROC found at least one of the two enormous objects had landed on the moon, in a crater the size of the City of Chicago.

LADEE

The sudden reactivation of LADEE was pretty stunning, as how the spacecraft was destroyed. Very curious stuff this. From Wikipedia...

The Lunar Atmosphere and Dust Environment Explorer (LADEE /'lədi/) was a NASA lunar exploration and technology demonstration mission. It was launched on a Minotaur V rocket from the Mid-Atlantic Regional Spaceport on September 7, 2013.

During its seven-month mission, LADEE orbited around the Moon's equator, using its instruments to study the lunar exosphere and dust in the Moon's vicinity. Instruments included a dust detector, neutral mass spectrometer, and ultraviolet-visible spectrometer, as well as a technology demonstration consisting of a laser communications terminal.

NASA Ames was responsible for the day-to-day functions of LADEE while the Goddard Space Flight Center operated the sensor suite and technology demonstration payloads as well as managing launch operations. The LADEE mission cost approximately \$280 million, which included spacecraft development and science instruments, launch services, mission operations, science processing and relay support.

The mission ended on April 18, 2014, when the spacecraft's controllers intentionally crashed LADEE into the far side of the Moon, which, later, was determined to be near the eastern rim of Sundman V crater.

Reactions

The reaction was as you would expect. There was a mix of disbelief, suggestions of fraud, and a quiet suppression of the event by burying its importance by other (more spectacular) news.

Flight Trajectory and Landing

I followed this event with great interest. As they approached the moon, the objects [1] decelerated and [2] entered what first appeared to be an elliptical orbit, but that was ultimately [3] changed through a course correction which involved a [4] deceleration routine. This was followed by a [5] sharp transition into a parabolic path that resulted in a [6] soft landing or low-velocity impact on the Moon's surface.

Their landing was visually observed to occur on Monday, 20 January 2014 at 11:58 by both the Meteoroid Environment Office (MEO) and the NSA.

The landing was on the near side of the moon near the terminator. Ground based photos were taken of it. It appeared to be a well-lighted construction. On it was a geometric array of lights that easily indicated how the structures were formed together. It can be found on the Google Moon viewer at coordinates 22042'38.46N and 142034'44.52E.

**22042'38.46N and
142034'44.52E**

The overall construction of this device and its transport are central to my contention that the species that we associate with have this level of technology. They can fabricate huge structures. They can move them great distances. They can relocate these structures into gravity wells with great care and precision, and they can assemble them quickly and professionally

at will.

This photo describes and illustrates the final construction and overall shape of the final facility as set up by the extraterrestrials. While we, as earth bound humans, do not understand its purpose or intent, we do understand what it is and the necessity of it's creation. Why is it on "our" moon? Why is the United States government keeping this from the public? These are answers that should be addressed. To this date, after the discovery of the event and the resultant configuration, all has gone silent.

This event, while now being derided as anything but an extraterrestrially fabricated structure, is actually a real and valid movement of a large scale habitation. These events do occur from time to time, and I am heartened that this time it was noticed and recorded.

In this case, I have no other information than what was posted on the Internet. But what I can add to this event is my understanding that this is a more or less valid sighting. The structure was fabricated and relocated to "our" moon for whatever unknown purpose. As an aside, I do not know what species was involved in this effort, nor do I know what purpose it is intended for or why. I also do not know which species is responsible for

this structure.

January 18, 2014 – (TRN <http://www.TurnerRadioNetwork.com>) – At least one enormous object of unknown origin has been visually verified as having landed on our moon. All of this was kept secret until, *quite by accident*, the LROC images (which are generally made public) were uploaded to the publicly available GoogleMoon service, where intrepid users came upon the enormous object. Now, the whole world can see this "object" on the moon – the secret is out.

Dr. "Norton" and his Narrative

"Dr. Eric Norton" (not his real name) has worked as a consultant for the National Security Agency (NSA) and NASA for about 12 years. He has worked on many projects for the government, most recently with the Meteoroid Environment Office (MEO) which is involved in several research projects with the underlying goal of gaining a better understanding of the meteoroid environment so that the MEO models can be improved. They basically monitor the

skies, track meteors and other objects in space.

On January 22, 2012 “Dr. Norton” was called to travel immediately from his east coast home to the McDonald Observatory in Texas, which is one of the largest optical telescopes in the entire U.S.. He was booked on a flight out the same night and was met at the destination airport by an Agent from Homeland Security who whisked him to the Observatory on a matter of national security.

Upon arrival, Norton says he met with other colleagues who said they needed his help to identify something which had been detected in space, and showed him images taken from the telescope over a period of months.

“What I saw was an array of massive, three-dimensional, black structures in space, in straight-line formation, advancing in direction of planet earth.” Norton said he knew this because he was also shown images taken three months prior, which depicted the very obvious course of direction of these things which, he said “had moved millions upon millions of miles closer within just 3 months.”

The speed at which the objects were moving was utterly incredible.

Dr. Norton said he was brought in with the understanding that his job was to aid in gauging exactly what type of composition these objects were made-up of. Were they man-made, natural or unnatural to anything seen before it?

Using the scientific instruments provided by NASA, Norton and his team were able to discern the fact these were not naturally-occurring materials. They were, to their best – but limited- understanding, some sort of metallic, carbon-reinforced material, several thousand times the structural hardness of what we have today; be it naturally-occurring diamonds or carbon nano--tube technology.

As the objects got closer, Norton and his team could see through their telescopes the structural features of these things in high detail.

“They were shaped in the best way I can describe, as a three-dimensional L-shaped craft”

-Dr. Norton.

He said he used the term “craft” loosely because he doesn’t know if they are piloted or vehicles at all in the strictest sense. “All we knew is they were moving and moving fast” he said.

By January, 2013, the objects had been tracked to about 200,000 miles past the planet Mars. At that point, almost instantaneously, the objects vanished from the telescope lenses. “It was almost like they flipped a switch; we couldn’t see them on any form of radar we have or any visual medium” he continued.

From February through April, 2013, Norton and his team scoured the skies looking for the objects to no avail. Norton was sent home and told to be ready on a moment’s notice to continue his work if needed. For almost 6 months, he heard nothing.

That changed in October, 2013 just before the US Government budget shut-down, when Norton telephoned a colleague and found out the enormous objects had suddenly re-appeared at our moon and had taken-up positions behind – or on – the moon.

According to Norton’s colleague, all hell was breaking loose in government to try to determine what these things were, where they were from, and what they were doing. There were all questions, but absolutely zero answers.

So, MAJestic started to task out resources towards investigatory avenues. The first thing that they looked at was a new, state of the art, observatory platform in orbit around the moon; the Lunar Reconnaissance Orbiter (LRO).

LROC

The Lunar Reconnaissance Orbiter (LRO) is a NASA robotic spacecraft currently orbiting the Moon in an eccentric polar mapping orbit. Data collected by LRO has been described as essential for planning NASA's future human and robotic missions to the Moon. Its detailed mapping program is identifying safe landing sites, locating potential resources on the Moon, characterizing the radiation environment, and demonstrating new technologies.

Developed at NASA's Goddard Space Flight Center, LRO is a large (1,916 kg/4,224 lb) and sophisticated spacecraft. Its mission duration was planned for one year, but has since been extended numerous times after review by NASA.

Launched on June 18, 2009, in conjunction with the Lunar Crater Observation and Sensing Satellite (LCROSS), as the vanguard of NASA's Lunar Precursor Robotic Program, LRO was the first United States mission to the Moon in over ten years. LRO and LCROSS were launched as part of the United States's Vision for Space Exploration program.

-Wikipedia

For over 1600 days NASA has been operating the Lunar Reconnaissance Orbital Camera (LROC) to take high-definition images of the moon surface. Despite being active for over 1600 days, LROC has only imaged about twenty percent (20%) of the moon's surface. NASA was unable to re-task the LROC to go on a wild goose chase for objects that may or may not be near the moon, NASA had to come up with a way to compliment LROC but do so in a fast and inexpensive manner. The solution: LADEE.

LADEE

In 2008, NASA proposed the Lunar Atmosphere and Dust Environment Explorer (LADEE) as a robotic mission that would orbit the moon to gather detailed information about the lunar atmosphere, conditions near the surface and environmental influences on lunar dust. At that time, there was a controversy about whether or not there was any water on the moon. This project was intended to help resolve that issue.

LADEE was to be a NASA lunar exploration mission led by Ames Research Center in collaboration with Goddard Space Flight Center.

In 2010, the Obama administration cancelled the LADEE program because of a redirection in the purpose of NASA.

- Hijacked! How Obama and the Left Killed NASA

To best understand the politics of NASA at this time, and how terribly unequipped the NSA and NASA was to handle this discovery, you need to know a few things...

Here’s how it went down: In early 2010, Obama cancelled the Constellation program (already a reported \$10 billion and seven years in progress) and its Ares I and Ares V rockets, the Orion spacecraft, the Altair lunar lander, and even America’s plans to return to the Moon and go on to Mars.

In early 2010, Obama cancelled the Constellation program (already a reported \$10 billion and seven years in progress) and its Ares I and Ares V rockets, the Orion spacecraft, the Altair lunar lander, and even America's plans to return to the Moon and go on to Mars. All the scientists and engineers were laid off, fired or reassigned. The development work was archived, and the test stands, and prototypes were all sold off for scrap.

With that, American space exploration was dead, and it may remain so for a decade or longer.

To create the appearance that America still has a space program, a project was invented to spend the next 10 to 15 years planning one single mission to a fragment of an asteroid.

A bipartisan majority in Congress united against Obama's destruction—partially. While Congress didn't have the courage to force NASA to restore the plans and hardware required to return to the Moon, lawmakers did save the two most critical elements of the program, the Orion spacecraft and the Ares V rocket, and approved funding for commercial crew launches. The Ares V Moon-Mars rocket was renamed the "Space Launch System" (SLS) and was somewhat improved. Congress's apparent goal was to proceed with the core elements of the program to allow the next president to restore NASA's mission of space exploration.

Cancellation of all American space exploration initiatives under President Obama. The money went from NASA to fund various “feel good” initiatives in Saudi Arabia, Dubai UAE, and the Sudan.

While this was happening, NASA Administrator Charles Bolden, a former astronaut, U.S. Marine Corps flag officer, and test pilot, was making diversionary excuses for the cancellation of manned space exploration and carrying out President Obama’s orders.

In July 2010, Bolden explained to Al-Jazeera:

When I became the NASA administrator, [President Obama] charged me with three things.

One, he wanted me to help re-inspire children to want to get into science and math;

He wanted me to expand our international relationships;

And third, and perhaps foremost, he wanted me to find a way to reach out to the Muslim world and engage much more with dominantly Muslim nations to help them feel good about their historic contribution to science, math and engineering.

via GIPHY

Michael Griffin, who ran NASA in President George W. Bush's second term, described the Muslim outreach initiative as a "perversion" of the agency's mission:

"NASA was chartered by the 1958 Space Act to develop the arts and sciences of flight in the atmosphere and in space and to go where those technologies will allow us to go," Griffin said. "That's what NASA does for the country.

It is a perversion of NASA's purpose to conduct activities in order to

make the Muslim world feel good about its contributions to science and mathematics” (Truth Revolt, Feb. 20, 2015).

Nowhere on Bolden’s list was advancing NASA’s mission of space exploration and remaining the world leader in technological innovation.

-CRC

However, in 2012, when the objects for this story were detected, the LADEE program was suddenly resurrected. NASA knew it would take over a year just to build LADEE and a rush order was placed to NASA’s AMES Research Center to build the LADEE probe.

The probe was launched on September 6, 2013 via a Minotaur V rocket, formerly designed as an intercontinental ballistic missile for delivering nuclear warheads. To reduce fuel costs, the mission was designed to require 30 days to travel to the moon achieving arrival through the use of earth and moon gravity instead of fuel. After arriving, LADEE underwent “check-out” for 30 days before beginning another 100 days for science operations. LADEE arrived at the moon around October 6 and finished check-out around November 6.

In December, 2013 LADEE’s Ultraviolet and Visible Light Spectrometer (UVS), which determines the composition of the lunar atmosphere by analyzing light signatures of materials it finds, detected something very large and very different from anything “lunar.” The object was located in a crater which is about the size of downtown Chicago. It was L-shaped, like a wedge, gave off no radio signals but did appear to have seven areas where light of some type was either being emitted or being reflected.

Thanks to LADEE having found the object, NASA knew where to look and sent the LROC to grab high-resolution images. Those images are classified, but low-resolution images from LROC made it out to the public via routine LROC publication.

They ended-up as part of GoogleMoon where intrepid users found the object.

Here now, the low-resolution images of an enormous object, which was tracked by the U.S. Government for millions of miles before it soft-landed on our moon.

嫦娥 3 Moon Lander Deployed

Chang'e 3. Chang'e 3 (/tʃæŋ'ɪ/; simplified Chinese: 嫦娥; traditional Chinese: 嫦娥; pinyin: Cháng'é sān hào) is an unmanned lunar exploration mission operated by the China National Space Administration (CNSA), incorporating a robotic lander and China's first lunar rover.

In 2012, the U.S. confidentially shared information about the inbound “objects” with other governments. Shortly thereafter to the surprise of many, China announced it intended to land on the moon and launched its Chang e-3 in December.

That launch took place and China became only the third nation to make a successful soft-landing on the moon with its Chang e-3 lunar lander. Upon landing, the Chang e-3 deployed a rover called YUTU. The U.S. has been in contact with China to see if it is possible to have its Chang 'e-3 moon lander or its “YUTU” rover travel this far to obtain more information. No word if China will assist.

Photo from the Chinese lunar rover. YUTU snapped six photos to make a mosaic of Pyramid Rock (Long Yan), a large block of rock near Chang'e-3 that was thrown into place by an ancient impact.

DOD Mission

The enormous objects have shown no sign whatsoever of hostile intent, but whatever is going on up there seems to have the U.S. Government concerned.

On January 10, NASA's Wallops Space Facility in Virginia made a sudden announcement, with only three days advance notice to the public, saying that three (3x) rockets would be launched from Wallops between January 13 and 15, between 1:00 AM and 5:00 AM all on a classified Department of Defense Mission.

The short notice was unusual; the Wallops Space Center usually provides

more than a month advance notice. In fact, on January 15 three Terrier-Orion missiles were launched from Wallops within 20 seconds of each other. Their cargo was not revealed to the public and the mission is classified.

Terrier Oriole is an unguided two-stage rocket system which is primarily used by the Goddard Space Flight Center out of the Wallops Flight Facility as a sounding rocket. The system uses a Terrier first-stage booster attached to an Oriole second-stage rocket. The system can carry payloads between 800 to 1,500 pounds (360 to 680 kg) up to an altitude of 320 kilometers (200 mi).

The Terrier-Orion is a small rocket that is not able to reach the moon.

It can only carry a small payload about 120 miles into space. So whatever the Department of Defense launched must have been small enough to fit on that rocket, yet powerful enough to assist in the study of this event. This

sounds to me like they have created a telescope by networking three smaller telescopes, like the "The Swarm Telescope Concept".

Pretty interesting stuff, I'd say.

Conclusions

"We still forget when we die, and they don't. They do not regard their bodies as sacred or a possession like most human societies do. They do not understand our preservation of self since they really don't have a self. At least if they lose theirs, they can get a new one and no harm done. They regard our spirit or soul as equal to theirs. In fact, it is indicated in several documents that according to them, our spirit is the same as theirs. We just have more physical attachment to our bodies than they do.

They also have been noted as saying that we choose to remain as Earth beings and come back life after life because we know our path and that is where we are supposed to be."

-Former Archivist who handled Classified Documentation

Our world; the reality that we inhabit is not at all what we think it is. You know, I kind of get a little pissed off when some one says "*There's no such thing as extraterrestrials. It hasn't been proven.*" The signs are friggin' everywhere. All you just need to do is open up your eyes just a little bit.

Don't be a fucking asshole.

Take Aways

- A large constellation of inbound objects was tracked for two years departing from deep space and heading towards the moon.
- The objects were viewed through telescopes and appeared as skyscraper--sized frameworks resembling "L" shaped objects.
- The objects moved in a trajectory that altered course, changed velocity and decelerated.
- The objects made a soft landing on the moon and were assembled in place.
- At the time of the landing, NASA was ill-equipped to monitor the situation due to President Obama re-purposing NASA from space exploration to Muslim outreach.
- A killed program, the LADEE, was resurrected before it could be turned into scrap metal. It was launched and sent to observe the activity on the

moon.

- The Chinese were asked to support this effort as well, and the timetable for 嫦娥 was advanced.
- An “accidental” positing of images on the internet alerted the public to the strange facility on the moon.
- A narrative from “Dr. Newton” explains what had occurred.

FAQ

Q: Why isn't this event common knowledge?

A: The mainstream American media is no longer tasked with reporting the news. They are a propaganda arm of the oligarchy. Unless the event derives political advantage, or is useful in formulating public opinion, the media and the editors will ignore it.

Q: What role did you have in this event?

A: I held absolutely no role in this event in any way. I was retired from MAJestic in 2006. My role, when I was active, dealt with the MWI and other things. I report this as an observer and throwing some things together that is pretty oblivious to most casual internet surfers.

Q: What did the mainstream American media report on instead of an armada of extraterrestrial skyscraper-sized rectangular objects inbound to the moon?

A: Here's the list from ABC news;

- *1. Ebola Epidemic Becomes Global Health Crisis.*
- *2. Disasters on Malaysian Airlines.*
- *3. Fighting in Ukraine and Crimea.*
- *4. Deadly Israel-Hamas Conflict.*
- *5. Rise of a Brutal New Terror Group.*
- *6. World Shows It's Competitive Side in Sochi and Rio.*
- *7. Republicans Take Control of the Senate in Midterm Elections.*

I have to ask the reader, seriously, how bad was the “Ebola Epidemic” in your life personally? What about the Malaysian aircraft? How did it affect YOUR life? What about the fighting in the Ukraine, or in Israel?

It's all propaganda.

I decided to get the tattered remains of my life together and move to China and this is what it was like for me to do so.

MAJestic Related Posts – Our Universe

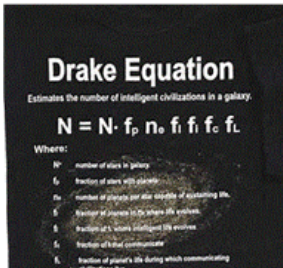

These particular posts are concerned about the universe that we are all part of. Being entangled as I was, and involved in the crazy things that I was, I was given some insight. This insight wasn't anything super special. Rather it offered me perception along with advantage. Here, I try to impart some of that knowledge through discussion.

Enjoy.

The Secrets of the Universe

When people discover what my role was in MAJestic, one of the first things that they ask me is whether or not I can "tell them the secrets of the universe". Certainly, they argue, I must have learned something... Well, I did. Here's the first installment.

The Drake Equation as Viewed by MAJestic

Many people use the Drake Equation to figure out why the average person is not exposed to extraterrestrials. Yet, MAJestic members know the real reason. Here we review the variables within the equation relative to MAJestic understanding and discuss things relatively.

Our Galaxy as Presented to MAJestic

Here is a very general overview of the little that I know about our galaxy. It is a mixture of known and accepted science blended with what I was exposed to in MAJestic. Of course, what is presented is within the limits of what I understand, no more. So it is actually a rough outline.

Sirius is not the home of the Enlightened Extraterrestrials

There is a rather large number of "spiritualists" who are convinced that enlightened beings from the Sirius solar system have come to earth to teach and instruct us humans. I actually find it rather laughable. Here, I review what Sirius actually is and why no great enlightened beings live there.

The Alpha Centauri System

Here are my thoughts on the Alpha Centauri System. It is, as always, a mixture of conventional science and what I know through my relationship with MAJestic. Keep in mind, that I am a man with limits. It is but an overview, and what is presented might hold some surprises.

The Fuselage embedded within the rocks of Victoria Falls

There is evidence that there was an accident (of some sort) that damaged a vessel (of some type). Over the years it has become buried in silt, which later turned into stone. Here we study this issue.

The Hammer inside the Rock – The “London Hammer”

Here we have evidence of a shellfish dislodging apparatus or hand-tool that was abandoned millions of years ago. Here we study this artifice. We look at the manufacturing challenges in making such an object and study the environment in which it was lost.

The Hollow Moon

Why is the moon hollow? This is one of those uncomfortable facts that just doesn't jive up with the conventions of accepted scientific knowledge. Yet, every study has confirmed this to be the case. Here we study this issue in detail.

The Mystery of the Lapulapu Ridge

Deep down under the sea in the greatest depths of the Pacific ocean is a mobile underwater city. It's been *operating there for many, many years. It has been leaving* tracks and debris middens all over the place. Here, we look at this in some detail.

Mystery of the Baltic UFO

Sonar scans, and visual confirmation, indicates that a large disc shaped object skimmed the undersea world of the Baltic sea and crashed. Subsequent investigations were suppressed. Now, all that is available for study are a small pile of rocks. Let's look at this mystery shall we.

Mystery of the Bronze Bell found inside a block of coal.

A hand-bell made out of brass was discovered totally encased in a solid block of coal. What is so interesting about this bell is that it depicts a winged humanoid. The only thing is, the coal dates from a time long before birds, where only insects flew in the skies.

The Oil Lamp Discovered in a block of coal

Many things have been found encased within rock hard coal. One of which is a small “pot”. This is obviously the lower part of an oil lamp, common a few thousand years ago. The problem is what is it doing in millions of year old coal?

Did Extraterrestrials set up a colony in Pennsylvania?

Sounds really strange doesn't it? Well, here we talk about the possibility of a community of very "unique" red-skinned, horned giants, with firearms were actually a colony of extraterrestrials. It's a long stretch. Yet, we look at them from this prism, as unlikely as it is.

The Oxia Palus Facility.

Here we talk about a facility that I know a lot about. It is a MAJestic aligned facility on the surface of Mars in the Oxia Palus region. It is many things, and was initially a mining operation with a smelting and processing facility. Here we discuss this facility as an overview only.

Let's chat about Brown Dwarf solar systems

Up until a very few years ago, no one knew if Brown Dwarf stars existed. Now we know that they do indeed exist, and that they are everywhere. Most people are unaware of them, but they play an important role as these dwarf stars are the home of many an intelligent extraterrestrial.

NASA Manned Space Exploration - What happened?

When President killed the Apollo space program, and Jimmy Carter neutered NASA, everyone sat back, fat and content that money was not being wasted and that instead American infrastructure was being taken cared for. Here is the real reason why Apollo and manned space died.

The Disclosure of the CARET Program at PACL

A full unapproved disclosure of a MAJestic related reverse engineering program was released to the public. It concerned the CARET program at PACL. It was quickly attacked and debunked. A music video was even generated as part of it. Here is the full documentation package.

Yes, We Do Live in a Multidimensional Universe

Here we discuss how world-line travel is possible. We look at the physics of the MWI and the mathematics involved. We also discuss an overview of Heaven, our universe and how our experiences within our reality are important. In our reality, everything is possible. It really is.

The True Nature of the Universe

This is a discussion on the true nature of the universe and how individual realities fit within its' scope. I consider this an important writing and it acts as a "bridge" between the various "schools of thought" on the nature of our universe. What is presented is for your consideration.

Why our Understanding of Reality is False

Here we discuss four paradoxes of the second law of thermodynamics and use this as a springboard to illustrate that it is impossible to understand our reality within the MWI using Newtonian limitations placed on us through observation.

Evolution of the first sentient life on Earth.

Humans are not the first intelligent life on earth. There were many others. Here we discuss one of the first species of intelligent life; the Cephalopods. They have existed for hundreds of millions of years, and now exist as octopi that inhabit the oceans around us. Let's talk about them.

Transport of an Extraterrestrial Modular Structure

In 2012 through 2014, a huge armada of skyscraper-sized modular components was tracked inbound to our solar system from deep space. They decelerated and landed on the moon. This is the story of how MAJestic scrambled to find out what was going on at this time.

The Frightening Possibility of Genetic Social Stratification

The primary mission requirements that I was involved in lay in assisting our benefactors in human sentience determination. The human race is moving towards a day of evolution and key to that point in time is the chosen sentience we select. It has frightening consequences.

The most common extraterrestrial species that interacts with Americans.

Here we discuss the grey extraterrestrial alien species. Contrary to the public narrative, there are numerous extraterrestrial species that regularly visit the Earth. In fact, they have all been doing so for many, many years.

The Mystery of the Dellschau Flying Contraptions

Here we discuss the mystery of a secret organization wholly devoted to enabling humans to fly. This organization was active years before the Wright brothers ever contemplated manned air flight. The members eventually died off, and all that remains are the records of their adventures.

MAJestic Related Posts – World-- Line Travel

These posts are related to “reality slides”. Other more common terms are “world-line travel”, or the MWI. What people fail to grasp is that when a person has the ability to slide into a different reality (pass into a different world-line), they are able to “touch” Heaven to some extent. Here are posts that cover this topic.

Some True Stories of Cat Heaven

Being in MAJestic taught me many things. One of which was an intimate understanding of Heaven and other “spiritual” things relative to quanta entanglements. Here I discuss what it is like to have a beloved animal (cat) dies and what actually happens to them and why.

Consciousness Migration for World-Line Travel

This post discusses how Heaven was formed, and what reality actually is. It discusses how world-lines function and just what MWI (Many Worlds Interpretation) is. This little post is the foundation of all aspects of my particular involvement with MAJestic. As such, it is important reading material.

What I miss from my original world-line

This is a little micro-post of some of the things that I miss from my time “before” I got involved with MAJestic and all that MWI “stuff”. It really makes no sense to anyone in this reality, but to me, it’s pretty important stuff. It’s simply a compilation of some of the quirks of this reality that are different to me.

Graphic on how world-line travel is possible

Many people are intrigued about world-line travel. They argue that the MWI is too difficult to understand, but thanks to Hollywood, the imagined adventures in alternative world-lines are quite appealing. Here we set forth how the MWI works and how it can be leveraged for world-line travel.

An Observed World-Line Switch - The Aluminum Foil Lady

Here is a report of a person entering this “world-line”. She appears on a busy road and is filmed by an automobile dash cam in the process. She is wearing a protective thermal “space blanket” material coat, and is apparently dressed like a nun. We discuss her and the utility of roads in this context.

World-Line Travel Using Vehicles - Some Examples

There is ample evidence that people are entering and leaving our reality using various methods and techniques. One of which consists of vehicles with heavy devices that enable world-line cross-over events. Here we discuss these events and look at numerous examples.

A World-Line where the Beatles Never Broke Up

Here is a story about a man who ended up getting hurt and was rescued by someone from an alternative world-line. He tell his story and brings back a Beatles mix tape as proof. We discuss his adventure relative to MWI slides and look at commonality of descriptions.

World-Line Creation and Stability Considerations

Let’s talk a little bit about what a world-line is, how it is accessed, and why it sometimes needs to be accessed. This isn’t full of all kinds of stories about visiting different world-lines, but rather why certain advanced species use the MWI to control the sentience evolution of humans.

ProfessorPhate as an Example of MWI Crossover

In 1999 an individual going by the name “Professorphate” produced a narrative claiming that he was from another world-line. In his narrative he talked about this other world-line and the circumstances that brought him to our apparent reality. Presented for curiosity only.

The “Passage of Time” is actually Observed MWI World-line Slides. Here we discuss what time actually is, and the differences between a dimensional egress portal and a MWI slide. We also use examples, two to be exact, where people have entered and left our reality using a 7th dimensional transport. We discuss how this works and why.

What is the Color of Chartreuse; is it Red or Green?

Many people who have lived through the 1980's, such as myself, clearly remember the color to be a deep red like color. However, our current reality describes this color as a yellow green. This confusion is known as a Alter-vús, and this post describes what is actually going on.

Mandela Effect - A System of Soul Management

Here we look at an interesting mystery that is occasionally observed. It is known as the Mandela effect. Essentially it is a situation whereas our memories do not match up with the reality. Here, we look at it in terms of MAJestic and the management and cultivation of soul growth.

What the difference is between Soul and Consciousness

To understand how our reality exists and what Heaven is like you need to understand the basics of just what we are. Here is one such fundamental understanding. That is the difference between souls and consciousness. For while we think, reason and experience, it is our consciousness that does so for our soul.

John Titor Related Posts

Another person, collectively known by the identity of “John Titor” claimed to utilize world-line (MWI egress) travel to collect artifacts from the past. He is an interesting subject to discuss. Here we have multiple posts in this regard.

They are;

John Titor and World-Line Travel as Time-Travel (Part 1)

This is an introduction to John Titor and his claim that he utilized world-line travel to go into apparent past(s) to acquire equipment. He burst onto the internet in 1998 and left in 2001. He left a trail of mysteries in his wake. In review, knowing what we know today, his story rings true.

John Titor and World-Line Travel as Time-Travel (Part 2)

Here we look at the John Titor narrative that describes what happened in the United States that precipitated civil war, and World War II. We look at it from a point of view twenty years later, and to the surprise of many, he accurately predicted many things that we take for granted now.

John Titor and Details on his Time-Machine (Part 3)

Here we spend some time going into the disclosed details of how the Time Machine actually works. We look at the manual and come up with the conclusion that he actually was hiding something or some elements of the machine. Let's look at this issue.

John Titor and our Reactions to his Disclosure (Part 4)

Strange as it might seem, once the news of John Titor hit the internet, many people had all sorts of reactions to it. Here we review the reactions. They, in themselves, tell us a lot about ourselves, society and about the nature of the universe. Here we look at the reactions.

John Titor - Full Text of his Transcripts (Part 5)

For over a decade the actual transcripts of what John Titor said and his discussions on chat boards were obliterated. The only thing that you could find were websites that said he was a hoax. That all changed when enthusiasts collected and posted his writings. Here are the earliest transcripts.

John Titor – Full Text of his Transcripts (Part 6)

There are all sorts of fragments of the John Titor discussions floating in bits and pieces throughout the Internet. This post collects some of the more obscure bits that did not make it into part 5 of the text. These tidbits are interesting but also irritating as the attacks on the narrative are relentless.

John Titor – Full Text of his Transcripts (Part 7)

This is the final discourse from John Titor to the rest of the folks on the BBS “Time Travel” board. He answers questions and responds to requests. He also clarifies things. Of course, the sniping and harping, as irritating as it is, continues unabated. It’s the final posting of this discussion.

John Titor – Full Text of his TTI Board Transcripts (Part 8)

Here is a secondary source for discussions involving John Titor. He subscribed to numerous time travel BBS forums, and this one; TTI is often overlooked. Here, we look at some of his statements on the board. His dialog on this board is very interesting and contains uncommon narratives.
