

# MAJestic Related Index

*Here is where you, the reader, can quickly go through my posts keyed by subject. In general, any post that has any bearing on MAJestic is placed within this listing.*

I was part of a program that fell under the MAJestic umbrella of operations.

I was not the only person in this program. We uniformly refer to this is MAJ operations.

I was not alone. Though the compartmentalization did create isolation and loneliness.

I really do not know why the organization was kept so secret. It really wasn't because of any kind of military concern, and the technologies were way too involved for any kind of information transfer. The only conclusion that I can come to is that we were obligated to maintain secrecy at the behalf of our extraterrestrial benefactors.

## Instructions

There are so many disinformation sites out there. Some are hoaxers, and some are fraudsters. Some are well meaning that generally pull in disinformation inadvertently. Some are just equivocators that receive information "telepathically", and some are just intentional "bald-face" lies. Many are just nonsense based upon a for-profit motive.

But...

This is a *real* disclosure.

If you want to really and sincerely learn something then you will need to read each and every single post in this list. You will need to start at the top of the list and work your way down. It's organized that way intentionally.

This isn't a shopping supermarket tabloid, *this is a textbook*.

The best way to read a textbook is to start at the very beginning and go chapter by chapter. If there are questions and problems at the end of the chapter to work out, you do so. Then, when you are done, you go to the next chapter.

To really get the most out of this disclosure, you will need to go chapter by chapter. Step by step...

## Step One – Separate the truth from the lies.

These next few posts are very important. If you have been searching for the “truth”, you have probably encountered all sorts of things on the internet. Most of which is absolute and fundamental nonsense. You have read and heard so much. You have seen all kinds of things too. Photo-shopped graphics and videos depicting amazing things are now the norm on the internet. How to filter out the facts from the nonsense?

Well...

Rule number one: The world, the people and the universe is absolutely not what you think it is. It is all quite positively different. Thus, to really understand what I have to disclose you need to take a deep breath and go down the “rabbit hole”.

Because it is REALLY different.

I have structured a way of teaching others about the TRUE REALITY. This is it. This is my method, and you all need to follow the course...

These first few posts are designed to help you discern the truth from the lies. So read these posts first. So let's begin here.

Let's put on our waders and trudge through the sludge of disinformation that has clogged up the internet, and has made it practically impossible to get any real and straight answers about the "extraterrestrial issue". Let's look at what you all probably had to deal with before you came here...

**An army of fake disclosures; or how the Internet is flooded with disinformation.**

There are other people who have stated that they were posted on Mars. I read their stories with a great deal of interest and more than a little bit of incongruity. Whether they are intentional elements of a disinformation scheme designed to preemptively advert any actual disclosure, or just isolated profiteers trying to capitalize on the mysteries of the UFO and ET abduction experience, I do not know.

---

**Metallicman discusses the absurdity of "Commander X".**

Let's discuss others that have tried to make a buck off of the UFO, or Extraterrestrial issue. Let's look at their motivations behind the creation of enormous amounts of disinformation that is nothing short of a fire-hose spewing out the most confusing and perplexing nonsense regarding our extraterrestrial benefactors. Here, we talk about some such person. We talk about "Commander X".

---

Now, perhaps you understand why I have set up this disclosure like I have.

Now... with that out of the way, we will start with some history.

# History

Oh, history need not be boring. It's actually very interesting. It's the stories of a man or a woman who have walked this path before. You can see their life, in their times, through their eyes. We can learn from their experiences.

Secret programs have *always* existed.

Anyone who tells you otherwise, or who snarkily makes an off-hand remark or disparaging post, is either an idiot or a paid disinformation agent. Secrets are normal. Humans keep secrets as it is part of our basic personality, and organizations rely on personal secrecy to protect their actions and membership.

Secret programs have always existed.

They have existed everywhere and have maintained their secrets until all the members have died. Here we look at an old scientific top secret program that has been resurrected from the dustbin of history...

### **The Mystery of the Dellschau Flying Contraptions**

Here we discuss the mystery of a secret organization wholly devoted to enabling humans to fly. This organization was active years before the Wright brothers ever contemplated manned air flight. The members eventually died off, and all that remains are the records of their adventures.

Well, that is interesting, Right? It's an interesting article and discusses something that you, and most people, have absolutely no idea of. Well, that's how it works, don't you know. Secrets are secret.

Well, let's fast forward to today and look at modern secret organizations.

The only American organization that is authorized to deal with extraterrestrials is MAJestic. That is it, and membership is *severely restricted*.

There are no exceptions.

This next post is a crash course on how Top Secret American programs operate, and why you will not find out secrets by reading the Washington Post, FOX news or the Huffington Post.

Real secrets are *really* secret...

The American mainstream and alternative media always talks about "leaks" and "selling secrets". People, I don't know what they are doing other than providing some kind of entertainment for the mindless American "sheeple".

What ever they are dealing with, it's not in SECRETS.

Real secrets are exactly that; secret.

Their membership is exclusive, and just because someone wants to have access, does not mean that they will get access. That means everyone, from the Congressmen, to Senators to the President himself. They are not worthy of being in the know.

### **How to tell if someone is in MAJestic (Part One)**

There are many fakers out there. I really do not know what their motivations are. Some might actually have some experience, I don't know. None of them seems to have any kind of background that even approaches the membership I know of. This is how you can sort out the truth from lies.

---

So now, let's look at a little history of MAJestic. Here we get into the establishment of the MAJestic program though the first convening of the MJ-12 task team...

### **How to tell if someone is in MAJestic (Part Two)**

In this second part, we go into details on how the United States safeguards secrets. We talk about the MJ-12 disclosure and a historical overview of MAJestic. We also discuss the various reasons and restrictions that MAJestic is operating from. It's an important read.

---

This next post discusses how the MJ-12 group established MAJestic and how it got setup, established and operates today. As well as how it functionally works.

### **Top Secrets and Flying Pigs**

Here I try to explain how the Special Access Program works, and described how the most secret elements of those programs are kept waived and unacknowledged. I discuss why, and use the example of a fictional “Flying Pigs Program”. To understand MAJestic, you need to read this.

---

## Turning disinformation on its head...

That being said, the reader might be of the opinion that since only I am talking about this that it must just be my opinion. But that is not true, the evidence is out there that what I am referring to is ACTUAL and REAL and does actually exist. People who are tangential to the program sometimes “brush up against” the MAJestic walls and relate their experiences. Here is a few such examples...

### **The Admiral Wilson Leak: Evidence of USAPs (Unacknowledged Special Access Programs) & Reverse Engineering of Extraterrestrial technologies.**

As I have repeatedly stated, the United States government has known about extraterrestrials for decades. They have established a very secret organization known as MAJestic to study this matter. This organization is used to interact with extraterrestrials and extract technologies from them. This organization is completely removed from the US government and operates secretly within it. It's sort of like bubbles of water floating within oil.

---

**Surprise! It's not Swamp Gas. The UFO's are real and the government has finally admitted it.**

What do you know? Hell finally froze over, well... maybe started to get a little slushy, maybe. I thought it would never happen. But it seems that a slow but cautious opening up of admittance is a start. No, of course they aren't admitting the active studies, the contacts, the programs, and all that. That is never going to happen. But, at least they are starting to acknowledge that someone or something appears to have some extremely advanced technology. And it is the Pentagon, and not the CIA, that is actively changing the nature of the conversation about it.

## Want hard proof?

And maybe you just don't want to believe what people are saying. Maybe you want to see "evidence", and other things aside from a few pithy sayings that you read while munching on fried pig skins, eh? Maybe you want to see some actual *technology*.

As if infrared night vision, fiber optics, Kevlar, and micro-circuits aren't proof enough. What? You actually believe that these technology breakthroughs come as a result of some guys tinkering alone in their basements? If you do, then you do not understand how R&D works. Ideas do not "pop" out of the air spontaneously. They are created as a solution.

Which is something that I always underline. Look at the motivation and the environment why things occur. That will tell you everything about how they appeared.

Evidence...

You want actual facts, and proof. Well, nothing can be better proof than aircraft that can go invisible and travel at enormous speeds, is that enough proof for ya?

**Very interesting patents are coming out from the United States Navy, and being denied because there isn't any supporting technology. Huh?**

Patent documents indicate that the U.S. and China are actively developing radical new craft that seem eerily similar to UFOs reported by Navy pilots. Could this new technology be the end result of decades of reverse engineering? Here we study this issue.

---

And cloaking technology...

**Hyper-stealth cloaking technology. Just in time for SHTF Geo-political realignments.**

Our extraterrestrial benefactors and most other (technologically advanced) non-human species possess the power of invisibility "cloaking" on demand. This invisibility was inclusive of widely varying methodology and could be all inclusive or selective for various radiative sources.

---

And anti-gravity technology...

**The Disclosure of the CARET Program at PACL**

A full unapproved disclosure of a MAJestic related reverse engineering program was released to the public. It concerned the CARET program at PACL. It was quickly attacked and debunked. A music video was even generated as part of it. Here is the full documentation package.

# Step Two – My Training & Experiences

Now, if you the reader have read those introductory posts, you should be able to handle my narrative. Make no mistake this is my autobiography. This is my story about how I was recruited for this MAJestic program while in the US Navy attending AOCS / Flight School.

It's my first-hand experience.

And as such, the posts are like chapters in a very long book. You start at chapter one and proceed until you finish the book...

## **The “Sales Pitch” Used to Ask Naval Aviators to Give Up Everything for MAJestic**

This is a narrative on how I was offered the role within MAJestic. I was in training to be a Naval Aviator when I was called upon by the base commander. He asked me, and another AOCS, to join. This is how he convinced me.

---

## **Feducial Training of ELF-Based MWI Access**

This is a small post about the training that we needed to learn into to enter into a transport mechanism for MWI access. You cannot access and switch world-lines without being able to access and “center” the implanted probes. This discusses this procedure and training.

---

### **MAJestic Mandated ELF-probe Implantation**

This post goes into detail on how the first two “kits” of probes were implanted into my head. All of this procedure took place on the Naval base at the ELF substation. At the time, only myself and the other member of my “cell” aside from the Commander took part in this procedure.

### **My Very First MWI Portal Egress**

This is a narrative of my very first experience in world-line travel. It happened immediately after I gave up flying as a Naval Aviator and joined the MAJestic organization. After training on feducials, and implantation, I joined a group of others and left our world-line.

---

### **First Egress Destination - EBP Implantation & Entanglement**

This is the narrative of what transpired when I entered the Fixed Dimensional portal. I went to an extraterrestrial medical facility where a EBP was installed within my body. I discuss what happened and my first encounter.

---

### **Post EBP Reconstruction -Return To The Navy Barracks**

This is my narrative on how I exited the dimensional portal and returned back to the Naval base. I discuss what it was like meeting my fellow classmates and how I was instructed to leave the Navy and become a civilian. This is how it is done and what I experienced.

---

### **After Implantation – Lost as an Autonomous Vagabond**

This is my story of what happened after I joined MAJestic, and left the US Navy. I was fully actuated, but not yet trained in using my abilities. As such, I was a “loose cannon”, and existed in a very confusing state of reality. I was the real life Jason Bourne.

---

### **Going to school after the EBP insertion and calibration.**

Once I had the EBP installed, and my genetic makeup modified, I underwent a long period of time being trained. This was during the time that I described in my post; lost as an autonomous vagabond. This period in my life was absolutely confusing. As I lived on the outskirts of society, living hand-to-mouth at a below-poverty level. While all the time, my consciousness was partitioned and participating within a training regimen.

### **Rescue from the Wilderness – A Special Assignment**

This particular post discusses how I found my way back to the Navy again, and began my “training”. I went into the desert to a Naval base located in the middle of the remote desert. At that time, I had no memory that I was part of a secretive military program, and thus the “special assignment” held little tangible meaning for me.

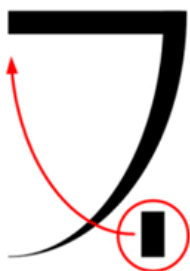

---

### **Probe Calibration and World-line Training (Part One)**

Here is the story how the set of MAJestic probes, placed inside my skull, were calibrated. This took place after implantation, and involved calibration exercises at the Naval facility at China Lake in California. This is a two part post and discusses the facility and actions there.

---

### **Probe Calibration and World-line Training (Part Two)**

This is the second portion of the two part post In this section we talk about how I was instructed in the operation of calibration of the probes and how I was provided with some limited knowledge in how to modify the programming. It wraps up with my exit from training.

---

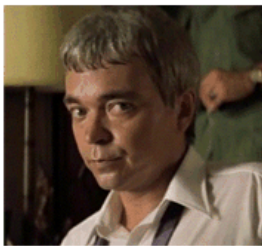

After training around 1986, into 2006 I was an “active” MAJestic “operator”. Here’s sort of what it was like...

### **Adventures in World-Line Travel**

In this post, I describe some of my experiences or “adventures” in world-line travel. As I have stated previously, many of the world-line slides that I cycled through were fairly bland. The changes were for the most part insignificant. Each one looked nearly identical to the one before it.

And how my missions ended...

### **MAJestic Mission Shut-down & Retirement**

All programs must end. This is how members of MAJestic that have core kit #2 probes implanted are retired. As they all need to be retired in a specially equipped facility and subject to a life time of monitoring. We cover the entire process and what is involved.

---

And a few lessons learned when armored police cars and Kevlar suited storm troopers swarmed my house as I was getting ready to leave for my work (my day job)...

### **The Ultimate Method to Make Your Computer Safe and Secure**

The best way to make your computer secure and private is to have very strong encryption and use an obscure operating system that very few people know about. Here we look at 37 obscure computer operating systems.

---

And getting “retired” ...

### **What life is like inside the ADC Prison in Arkansas**

This post discusses what life is like in a hard labor prison in Southern Arkansas. We discuss hoe squads, food, the hole, commissary, dress, fashion, homosexual culture, prison gangs, murders, relationships and other aspects of life when you are sentenced to “Hard Time”.

### **Some stories from prison. How other people ended up being locked up; The landscaper.**

He wasn't a rich man, but he was making a good living. He had about fifteen steady customers and a small crew that helped him mow lawns and trim hedges. He had a truck (new) that pulled a trailer that held the tools of his trade, and emblazoned on the side of the truck was his landscape businesses name and his logo.

---

Finishing my “retirement”, and appropriately saying “Fuck this!” and leaving the USA for good...

### **What it was like for me to leave America for China.**

This is my story on the final moments of my life in the USA. I had just completed my retirement sequence for MAJestic and I was released to enter the monitoring section of my retirement. I decided to get the tattered remains of my life together and move to China and this is what it was like for me to do so.

---

Ah...

But it's not over. Not really.

The United States government invested a lot of money, I mean billions of dollars, in myself and the program that I was in. You don't think that they are just going to “bleed me out” and not keep an eye out do you?

No. Of course not.

Even as I sit in “far away” China. Minding my own business. The “long arms” of the United States military empire is out there ready to squash you like a bug...

### **Keeping the Programs of MAJestic Secret**

Somehow, over the years, it has become very important that the American government and (their) media subject the American people to all kinds of disinformation. This disinformation comes in different sizes, and shapes, and follows a great diversity of complexity and manipulation. It is quite mature, and actually perfected to handle the bulk of American citizenry.

---

But it's more than that.

While I might be “retired” by MAJestic. Our extraterrestrial benefactors still use me for their purposes. And while the MAJestic side of the coin is all shut down, I am forever part of this other species in whatever role that they have for me. And they do communicate with me, keep tabs on me, and alter me as they deem fit...

### **Tweaking the MAJ Operator. A narrative of what it is like.**

Now, in this post I am gonna talk about an aspect that I have yet to cover. This is, pretty much, and essentially "the other side of the coin". Or, to put it in more conventional language, what the other half of me is doing. This post describes my periodic “check ups” and procedures that I go through from time to time.

---

So while I am looking “over my shoulder”, I am cautiously and guardedly presenting the following tidbits of “breadcrumbs” for interested parties (such

as yourself) to learn about.

In so doing, let it be completely understood that I have restrictions and limitations on what I can discuss and disclose...

## Step Three – Our Universe

Now that you know how MAJestic operates, works, and obtains it's members, and you know my story we can start talking about the disclosure in detail.

And here it is in all it's glory. It's so far incomplete as I have many more posts to add to this list. Trust me, I am churning them out as fast as I can....

To understand how everything works in this universe, you need to see the universe for what it is. And it is decidedly NOT what everyone thinks it is. If you try to fit what conventional belief is, you will forever be confused. So here we start looking at the universe as it actually is.

And we see that soul, consciousness and amazing God-like technology all work together into one unified whole...

### **The Secrets of the Universe**

When people discover what my role was in MAJestic, one of the first things that they ask me is whether or not I can "tell them the secrets of the universe". Certainly, they argue, I must have learned something... Well, I did. Here's the first installment.

### **Yes, We Do Live in a Multidimensional Universe**

Here we discuss how world-line travel is possible. We look at the physics of the MWI and the mathematics involved. We also discuss an overview of Heaven, our universe and how our experiences within our reality are important. In our reality, everything is possible. It really is.

---

### **The True Nature of the Universe**

This is a discussion on the true nature of the universe and how individual realities fit within its' scope. I consider this an important writing and it acts as a "bridge" between the various "schools of thought" on the nature of our universe. What is presented is for your consideration.

---

### **Why our Understanding of Reality is False**

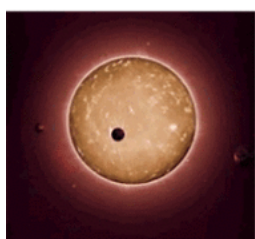

Here we discuss four paradoxes of the second law of thermodynamics and use this as a springboard to illustrate that it is impossible to understand our reality within the MWI using Newtonian limitations placed on us through observation.

---

### **The structure of our physical universe as understood by MAJestic.**

This is going to be a kind of odd-ball post, and I have been putting it off for a long time. But it needs to be presented, no matter how confusing or perplexing. This is a post that talks about our physical universe, as opposed to what is conventionally believed to be our universe. I discuss our physical and non-physical universes and what the delineation is. I also discuss how it differs from what everyone thinks it is. This is what many people in MAJestic understand the universe to actually be like. In some ways it is simple and in some ways it is really strange as it does not agree with our physical Newtonian observation.

### **Nearby Nursery Solar Systems for the management and development of intelligent ambulatory life.**

If there is one thing that is missing in the discussion of extraterrestrials, ET, UFO's, OOPARTs, extraterrestrial visitation, and MAJestic, it is a reasonable discussion about the surrounding physical universe. No one ever talks about the "local" solar systems that are within a few tens of light years away. No one ever really questions if there might be some kind of association between our solar system and those other solar systems around us...

---

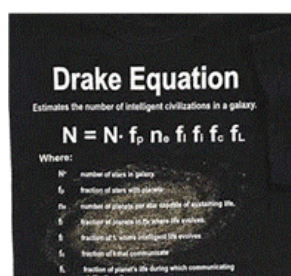

Now that you know how this universe works and operates, you can see why most of the "extraterrestrial" / "UFO" nonsense out there is so radically wrong. It's all bullshit. It really is. Those that have mastered technologies far in excess of what we understand truly understand how our universe works.

## **Step Four – Extraterrestrial Life**

That's the big thing, right?

Everyone wants to know is the earth is all that there is. And if MAJestic exists, then there must be something that I can say about this kind of matter. And Yes I Can.

Here are just some posts that discuss extraterrestrial life in *general*...

### The Drake Equation as Viewed by MAJestic

Many people use the Drake Equation to figure out why the average person is not exposed to extraterrestrials. Yet, MAJestic members know the real reason. Here we review the variables within the equation relative to MAJestic understanding and discuss things relatively.

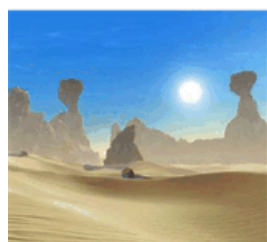

---

### Our Galaxy as Presented to MAJestic

Here is a very general overview of the little that I know about our galaxy. It is a mixture of known and accepted science blended with what I was exposed to in MAJestic. Of course, what is presented is within the limits of what I understand, no more. So it is actually a rough outline.

---

### A little discussion on the kinds of planets where intelligent life can naturally evolve from. Are they like earth, or something else?

One of the biggest misconceptions that (typical) people have is that life, anywhere in the universe, must have the identical conditions that exist for “our” earth. The argument is that a G0 to G3 star (much like our own) is needed, and that the target planet must lie within the “habitable zone” around that star. Here we refute this argument.

---

# Step Five – The Earth as a sentience nursery

Well, the idea that the universe is a big empty place, and that humans are the smartest and best species to inhabit it is ... well, ludicrous.

Earth is a sentience nursery, and our section of the galaxy is a well-tended, well-established suburb of the galaxy. Our species is just, well, infants in the grand scheme of things.

Which brings up my role somewhat...

## **The Frightening Possibility of Genetic Social Stratification**

The primary mission requirements that I was involved in lay in assisting our benefactors in human sentience determination. The human race is moving towards a day of evolution and key to that point in time is the chosen sentience we select. It has frightening consequences.

---

## **The truth about our reality; we are corralled animals being farmed for our sentience**

Is all we see, all that there is? Is all the rumors about UFO's, little green men, and strange being that walk in and out of our reality just some kind of Hollywood fiction? Is the idea that we can buy our way into "forgiveness" and "Heaven" possible if we donate enough money to charity and large churches? Is wealth the sole method to determine whether or not you lead a successful life? What is real and what is not? Well, here we discuss all that.

---

And why there are limitations on human movement off planet...

### **NASA Manned Space Exploration - What happened?**

When President killed the Apollo space program, and Jimmy Carter neutered NASA, everyone sat back, fat and content that money was not being wasted and that instead American infrastructure was being taken cared for. Here is the real reason why Apollo and manned space died.

---

Well, that being said, MAJestic has been working with other species...

## Step Six – Species

Here I discuss some of the extraterrestrials that MAJestic has been involved with... that I am privy to discuss. I have only first hand knowledge of four species. That is the extent of what I can discuss, and of that, my knowledge is limited, and what I can say is restricted even further. Never the less, you all might find what I have to say of interest.

---

# Step Seven – World-Line Travel

Since our universe is quantum in nature, and the technologies of all of our extraterrestrial friends and benefactors bend time, space and reality, it should be well understood that our idea of what the universe is, is actually quite wrong. So here are some posts related to that. In these posts we talk about how reality has been bent or altered either by technology or thought control...

---

# Step Eight – Utilizing Intention

Now that you, the reader can see that it is normal that Top Secret organizations exist and operate, and that they know things that are denied to “regular normal people”, it should be made absolutely clear that the above mentioned posts all have one thing in common...

Our universe operates on the laws of quantum physics. Not Newtonian physics.

And the number one law of quantum physics is that thoughts create our reality. Thus to fully have mastery of our life, of our earth, and of our uni-

verse, we must first master our minds. We must be able to control our thoughts and be able to direct them.

Here is a series of posts that revolve around that concept; that you can control your life and your reality by controlling your thoughts...

---

## Step Nine – Other Universes / Heaven

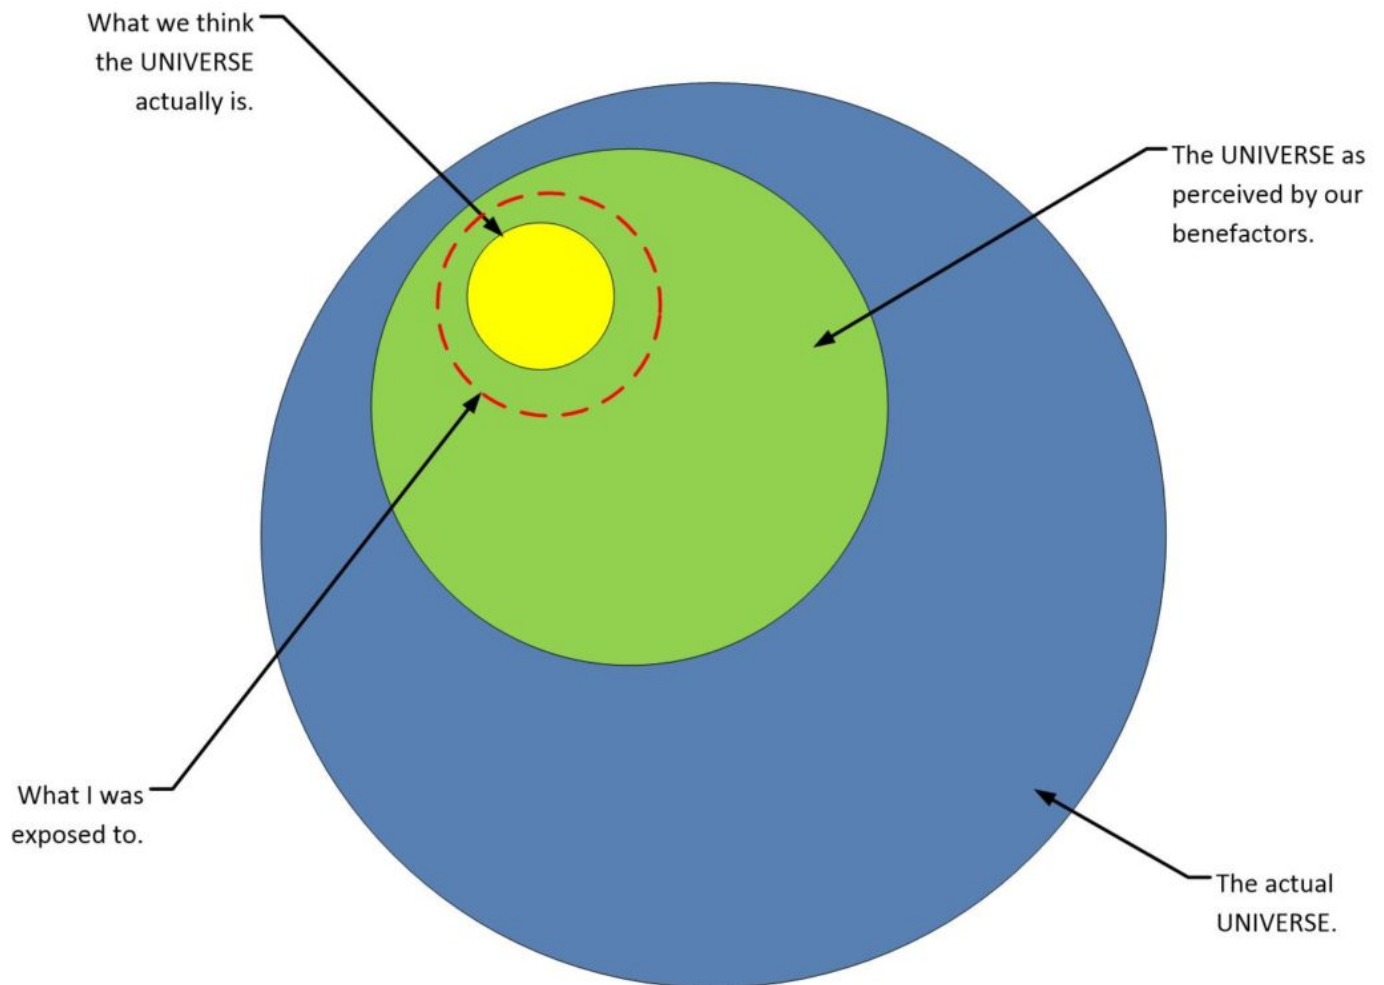

Well, we think we know everything, now don't we?

Well, we do not.

We only perceive a mere fraction of all that there is. And our simple minds interpret what we see as being all there is. Oh, boy oh, boy is that ever wrong.

We are dealing with species that see the world in a much greater degree of perception than we can even conceive of. And for me to do my role, I had to

be entangled with this greater perception...

Perception compared to reality.

We do know that there are other universes. "Our universe" is not the only one. But how can we visit them?

Well, we can, but we need to recognize that we are consciousness and to visit other realities we need to leave the realities within this universe and enter other universes via our soul consciousness. Thus, as consciousness, we can do two things;

- We can conduct world-line travel. (In particle form).
- We can travel outside of a world-line. (In wave form).

Once our consciousness enters the wave form it can travel all over the place. It can visit the “spaces” between the world-lines, and “go upward into the light” and reach “Heaven”.

There are all sorts of names and degrees of what constitutes “Heaven”. For now, I will just keep it simple and use that term to refer to EVERYTHING outside of a given world-line.

Now I have experienced all sorts of crazy-ass stuff associated with “Heaven” though my EBP entanglement. Most of which is beyond my ability to vocalize into any kind of understanding. But, I have my methods.

Firstly, I can observe things, and then relate them as an observer...

### **Some True Stories of Cat Heaven**

Being in MAJestic taught me many things. One of which was an intimate understanding of Heaven and other “spiritual” things relative to quanta entanglements. Here I discuss what it is like to have a beloved animal (cat) dies and what actually happens to them and why.

---

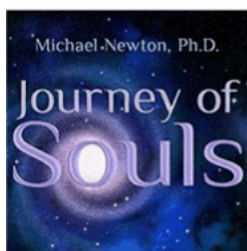

And secondly, I can advocate a person that can describe what I know to be true... in a way much better than I can.

Thus the works by the great Doctor Michael Newton who studied the geography of Heaven through regression hypnosis. It might be something that most people would discount as “tin foil hat” nonsense, but his works absolutely and accurately describe what I have observed personally in my MAJestic dealings.

Though, please take note that he did not understand the MWI, and some of

his assumptions are in error. What he did was try to map out what Heaven was from the basis of what "time" and "reality" is. Still the best reads out there.

The first book is considered "ground breaking", I however thought that it was rather elementary. Thus, I strongly urge any reader to read this book first before you tackle the second...

### **The Geography of Heaven; Journey of Souls (full text) by Michael Newton**

There are all kinds of books out there that will describe "Heaven" in all sorts of ways and in terms that may, or may not be familiar. Most are terribly inaccurate, at best. Not this one. This is the complete reprint of the masterful work "Journey of Souls" by Dr. Newton.

---

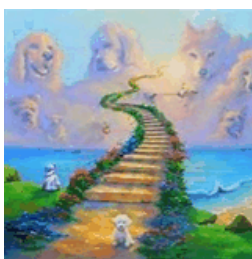

Unfortunately, this first book has all kinds of "new age" things inside of it that pretty much "turned off" my readership. It also had some misconceptions. So I went ahead and annotated the book and explained things so that my base readership would understand what is going on, relative to MAJestic and the entire universe. Here are the posts broken down for easy reading and study...

### **The Geography of Heaven; Journey of Souls (full text) by Michael Newton (part 1a) with world-line (MWI) annotations.**

Here, we are going to take the great writings of the good Doctor Newton and expand upon them. We will elaborate on what is actually going on from a (dispassionate) fourth person perspective, instead of the second-person narrative. This is part of a multiple part post. This is the first post.

The second book is full of “red meat” and is just packed with information. However, most readers will not be able to understand it unless they read the first book. This book, due to the size and complexity has been broken down into three posts. A lot of good stuff is here.

Again, realize that he and his patents did not understand what “time”, “realities” and the concept of “quantum shadows”. Please take his misconceptions into account when you read his works.

### **A detailed look into the topography of Heaven; The Destiny of Souls (full text) by Michael Newton.**

This post is a very detailed look at the makeup of Heaven. It is a complete study of the in's and out's of Heaven, Souls and humans. It is, by far, the most comprehensive and realistic study of what Heaven is outside of religious dogma. It is also free of pseudo scientific understandings enveloped in strange scientific jargon. This is part two of a two part post.

This post is a very detailed look at the makeup of Heaven. It is a complete study of the in's and out's of Heaven, Souls and humans. It is, by far, the most comprehensive and realistic study of what Heaven is outside of religious dogma. It is also free of pseudo scientific understandings enveloped in strange scientific jargon. This is part two of a two part post.

## Step Ten – And how our universe actually works...

Our universe works and obeys quantum physics laws. These are quite unlike what we were all taught in school; the Newtonian Laws of physics. Once you totally grasp this reality, that Newtonian physics is but a small subset of quantum physics, then one can start to fully understand and comprehend the sheer totality of what is being presented herein.

To start, let's cover all those scientific experiments that were set up to find out how PSI and ESP works. For they have discovered some astounding things...

**The Intention Experiment (full text) by Lynne McTaggart. In HTML for free access. Part 1 of 4.**

This is a complete reprint of the book titled "The Intention Experiment" by Lynne McTaggart. It is a non-fiction book, and it is groundbreaking. In this book, the author has compiled all those studies about the reality of ESP, and PSI, and compiled the results. The results are pretty damning. Something is going on, and Newtonian physics cannot explain it. It can only be explained with quantum physics.

Well, forget all those notions that our universe is something out of "Star Trek", "Star Wars" or anything like that. Our universe functions and looks like something totally different. To be truthful, our universe more resembles an old science fiction story by Robert Heinlein titled "Glory Road". While it is a fiction, it will best serve you to well remember, and keep in mind, that this story is pretty close to what our true reality is like...

### **Glory Road (Full Text) by Robert Heinlein**

The is the full text of the Robert Heinlein novel titled "Glory Road". This is a science fiction story that accurately depicts the way that our universe actually is as opposed to the way most science fiction writers think that it is. It is a great introduction to the concept of where we are, and who we are in our universe.

And maybe you can see some of what is denied to you by using the proper tools. Perhaps...

### **Glimpses into the non-physical reality**

Here we discuss some ways or techniques that you can use to alter the way you can see the reality that you are in. In this post we will look at some drugs that alter the way that the brain senses things and interprets them, as well as some "illnesses" or "ailments" that enable humans to observe the unseen worlds around us.

---

Most of the tools involve changing how your brain processes the I/O that it obtains from it's senses. By changing the process, we can see things differently. Perhaps distortedly, or perhaps more accurately. This involves the use of chemicals. And mind-altering chemicals can be dangerous if you do not know what you are doing. But if you actually do know, then this is for you...

### **PIHKAL (full HTML) by Alexander Shulgin**

PIHKAL (Phenethylamines I Have Known And Loved) is a unique book written by renowned psychopharmacologist Alexander Shulgin and his wife Ann Shulgin. This book gives details of their research and investigations into the use of psychedelic drugs for the study of the human mind, and is also a love story.

### **Tryptamines I Have Known And Loved: The Chemistry Continues (full HTML) By Alexander and Ann Shulgin**

A lot of people didn't receive this book as well, they felt it was lacking in comparison to Pihkal. I would disagree. There was less overall information but were also talking about a completely different class of drugs. The stories at the beginning were awesome, as they were in Pihkal. The chemistry and bioassays in the back were also awesome. Great book, if you like the Shulgins.

## **Step Eleven – Influencer Questions**

Now that I have presented such a great selection of posts to muse about, it should be of no surprise that people have asked me questions. Well here are posts related to the Q&A efforts asked of me. It's good stuff, I'll tell you what.

# Step 12 – Will we ever fly to the stars?

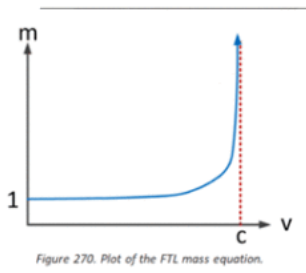

This is a common enough question. Will humans ever get to fly “to the stars” and explore space using technologies that we can understand and utilize? Well here are some posts on that subject...

## **A review of faster than light (FTL) travel; the techniques, and the mechanisms worthy of contemplation (part 1)**

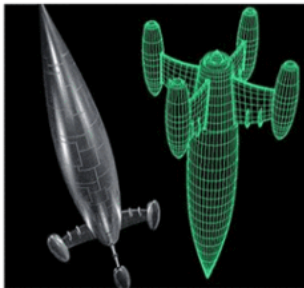

This multi-part post is devoted to the issue of travelling between the stars within the lifetime of a human. It does not necessarily mean that the propulsion method would be so fast as to exceed the speed of light, though that possibility does exist. It simply is a discussion on how the great gulfs between the stars can be traversed using contemporaneous human technology. As such, it purposely omits dimensional gates and transport portals. I most certainly do not have the answers regarding this most interesting of subjects. This post discusses this issue because one of the first things a debunker does is complain that engineering solutions are unattainable. I discuss these issues and more. It is a good read.

## **Step 13 – Who I am.**

Yeah, now you read everything. Now take a final gander on who I am and what my role is...

**Who am I? What am I? What was my role in MAJestic? Why this disclosure? What is actually going on?**

This is what my role was within MAJestic and why the Benefactors have been so keen in working with me on all those many, many world-line slides. This is the full data dump and I explain it all out. This is what I am today, and why I exist.

## Step 14 – John Titor Related Posts

Another person, collectively known by the identity of “John Titor” claimed to utilize world-line (MWI egress) travel to collect artifacts from the past. He is an interesting subject to discuss. Here we have multiple posts in this regard.

## Step 15 – DIY World Line Travel

I have moved all these posts on to their very own index. If I leave them here, it just clutters u everything. Ugh. Anyways, go for it, if you are adventuresome enough...
